First soak the brushes in turpentine and afterward wash in soapy water in which a little soda is dissolved. For brushes that have been used for varnish use spirits of wine or methylated spirit instead of turpentine.

KILLS GERMS OF CATARRH

Hyomei Goes to the Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Thousands of testimonials have been given as to the astonishing cures made by this remedy.

Mrs. Le Rendu, 76 Western Avenue, Cleveland, Ohio, writes: "I believe Hyomei saved my life. I am better now than I have been in thirty years. Many doctors, both in England and France, treated me for catarrh, but I was not cured until I used Hyomei."

Probably the strongest evidence that can be adduced as to the powers of Hyomei to cure catarrh is the fact that Rickert & Wells will agree to refund the money if you say Hyomei has not cured you.

The complete Hyomei outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c.
